## PRODUCT DESCRIPTION

The robust, powerful and particularly dust-proof tablet of the Industry 4.0 generation is ideal for use in the mining industry. The Android Enterprise Recommended device can be used immediately thanks to its zero-touch functionality and is ideally suited for maintenance applications in the IoT environment. The 8-inch display, two freely programmable buttons, a long-life battery, a practical hand strap, leather bag with a shoulder/belt or carry strap system are further highlights.

### Advantages

- Android™ 13
- Very high level of safety in the mining sector with the risk of firedamp
  - Tough, high-performance device
- Easy to use and easy to carry and hold thanks to the hand strap
  - Individually programmable keys
- Android Enterprise Recommended
  - Zero-touch capable

- Ideal for IoT maintenance applications
- Display can be operated with gloves

### Technical Features

|                            |                                                                                                                                                                                                        |
