Explosion Proof Excellence

BARTEC is a world-leader within explosion proof equipment, and a pioneer within intrinsically safe devices.

Safety is our first and foremost priority, and we set the highest possible standards to the safety and integrity of our devices. Purpose engineered for the strictest EX requirements, the intrinsically safe Pixavi Phone can be used in the toughest environments all over the world.

Certifications:

- Ex ib IIC T4 Gb
- Ex ib IIIC T135°C Db
- Ta = -20°C to +60°C

Lightest and slimmest

Weighing in at 293 grams, the Pixavi Phone is the lightest and slimmest Intrinsically Safe smartphone in the market. Its low weight and slim design, combined with the market-leading 5.5" screen, provides the user friendliness of a consumer smartphone - without compromising safety or ruggedness.

293 grams

Highly Ruggedized

- Rigid anodized aluminum body
- Reinforced with protective rubber edges for extra protection
- Extreme shock and scratch resistant Gorilla Glass®, glove compatible

Cutting-Edge Design

- Slimmest intrinsically safe smartphone – only 14.5 mm thickness
 - Lightest intrinsically safe smartphone – only 293 g
 - Largest display on the market with 5.5"

Other features

- Regular Android security updates
- Dedicated programmable button (e.g. as PTT, SOS, man-down, or camera button)
 - Magnetic charging port for easy charging
- A variety of accessories: including dropped safety straps, wired stylus, protective cover
